128070	Wall Bracket	S-Bracket

# The difference is clear

| Unrivalled build quality • Outstanding performance • Easy installation

*Sturdy, galvanised steel mast brackets and reflectors ensure extra stability and weather protection. Accurate setting scales allow for perfect dish adjustment.*

*To ensure the feed arm is in the right position, it is secured with a bolt with additional nut on the back of the dish.*

*Unique cable protection: the coaxial cable runs through the feed-arm to the back of the dish.*

*On all dishes the arm goes through the reflector to secure a stable mounting. A bolt with additional nut, placed on the back of the dish to secure the feed-arm is in the right position.*

## Unrivalled build quality

- Hot-dip galvanised steel
- TRIAX's unique cable protection system
- Every part, every accessory is weatherproofed

## Outstanding performance

- High gain for an exceptional signal

## Quick and easy installation

- One-click mounting system
- Self-locking screw & nuts
- Fits the full range of TRIAX LNBs

*The UV-resistant plastic Ø40 mm LNB holder is quickly clicked on to the feed arm.*
